ABOUT US

Shenzhen Apexls Optoelectronic Co.,Ltd. (www.kszed.com), a subsidiary company of Ledman Group., which was registered in 2009 with the capital ¥23,142,900.00, is the leader of creative LED display. With rapid and healthy development, Apexls became an integrated manufacturer of LED products, covering developing, producing, marketing and servicing of all kinds of conventional LED display and creative LED displays. Apexls industry park located in Bao'an district, which takes 20 minutes driving from Shenzhen International airport, made by a workshop of 36,000.00 ㎡ and a living dorm of 12,000.00 ㎡ with over 300 employees. Now Apexls LED display products have been sold to over 80 countries and areas, such as USA, Canada, Mexico, Spain, Croatia, Bulgaria, Romania, Poland, Germany, Italy, Austria, Korea, Japan, Hong Kong and Macau. etc.

Apexls have designed and produced LED display products like Sphere LED display, dome LED display, Triangle LED display, Flexible LED display, Can shaped LED display, Christmas tree shaped LED display, Logo LED display, Curtain LED display and so on, highly approved by domestic client and overseas. Strictly raw material selection and use, advanced workman-ship process, strictly quality checking procedures, all made Apexls' products high stability and high reliability, and all these made Apexls' clients more loyal, Apexls signed distributors in Canada for sports field, Outdoor bill board filed in Portugal, Dome LED field in Japan, Flexible LED field in Germany, etc, and will be more and more in other areas, other field.

Apexls always insists clients' needs oriented, providing the professional solutions, products, services, to meet the requests and demands from end users. Value participated, Innovation, Integrity, sharing and mutual benefits is the core values of Apexls, Apexls will steadfastly growing to be the world-class LED display solutions' provider.

SPHERE LED DISPLAY

Apexls LED spherical screen is a creative LED spherical display screen, with multiple display splits, telescopic special-shaped display, uniform technology display high-definition picture without distortion, super advertising value. Has a number of national patent certificates and won the Shenzhen Enterprise Innovation Record.

Application areas: museums, planetariums, science and technology museums, children's palaces, exhibition halls, gymnasiums, waiting halls, star hotels, large open spaces, railway stations, ports, shopping malls, bars and other places.

- **Seamless assembly**
Customized PCB design with seamless splicing
- **Hollow aluminum structural design**
Lightweight design, excellent heat dissipation
- **Size customized**
Customizable pixel pitch and diameter
- **360 degree view angle**
High impact visual, good eye-catching

LED CAN DISPLAY

Apexls LED cans, a personalized product for precise market application, can be used in scenes such as landscapes, exhibitions, and vending machines. The product has high practical value, outstanding innovation, energy saving and environmental protection, and it is the first of its kind in the domestic industry. Has a number of national patent certificates and won the Shenzhen Enterprise Innovation Award.

Application areas: museums, planetariums, science and technology museums, children's palaces, exhibition halls, gymnasiums, waiting halls, star hotels, large open spaces, railway stations, ports, shopping malls, bars and other places.

FLEXIBLE LED DISPLAY

APEXLS flexible screen is by soft LED modules. Compared with traditional screens, flexible screens have more advantages for creative solutions. It can achieve creative shape, like Cylinder, Concave, Convex, Wave Shape, Mobius Strip etc. Various pixel pitch optional, P1.5 , P1.8, P2.5, P4 to meet different requirements. Applications are: Museums, Shopping Mall, Advertising, Exhibitions, Hotel, Theme Park and so on.

P1.875/P2.5/P3/P4

P2.5 Bracket

> PRODUCT FEATURES

- Flexible Module+GOB**
To adopt surface waterproof requirement, glue on board treatment is applied to flexible modules.
- Simple & Moldable**
Every flexible module has several magnetic columns with quick butt-joint signal and electricity wires, firm and reliable, easily to be assembled or dismantled, simply the best to moldify various columns, waves, belts or curve screens,etc.
- Soft & Curlable**
Equipped with flexible & high temperature resistant FPC PCB, bending resistant silicone bracket, embedded magnet pieces, freely to serve the curve or twisted Led Display creations.
- Slim & Graceful**
Regardless of flexible module model, every piece has the thickness ≤4 mm & weight ≤ 260g, splicing error ± 0.1 mm, it can be arbitrarily shaped according to project demanding, seamless spliced and suitable for installation methods such as hoisting, seating, embedding or wall-mounting...

FINE PIXEL PITCH

APEXLS small-pitch series is a micro-pitch LED display suitable for any indoor scene. Has become a new generation of LCD splicing walls and DLP projection splicing products alternatives, to provide customers with high-quality display services in information dissemination, brand display.

Application areas: studios, security monitoring centers, conference rooms, command and control centers, etc.

- Seamless,high definition
- High gray scale,lossless technology
- Intelligent brightness adjustment
- High refresh,improve visual comfort
- Low radiation,zero noise
- Point-by-point correction

LED TRANSPARENT SCREEN

With the development of display technology, APEXLS transparent LED display is more and more popular own to its light, thin and transparent features.

Application areas: Shopping mall, commercial advertisement, technology museum , etc.

Ultra thin

Ultra-high brightness

High transparency

Good heat dissipation

High grayscale

High refreshrate

➤ SUCCESSFUL CASES

LED CURTAIN DISPLAY

APEXLS LED Curtain Display , also called LED Mesh Display, is high transparency outdoor led display.It is 65% lighter than conventional LED display and has less requirement for steel structure than conventional LED Display. High transparency ensure it reduce much impact of the natural lighting and provide better viewing for buildings than conventional one.

Applications:Widely used at the top of buildings, facades, urban landmark buildings, municipal building,etc.

- Fanless design,noise free
- High efficiency
- Good heat dissipation
- High brightness
- Ultra-light design
- Easy installation and easy maintenance

REGULAR INDOOR LED DISPLAY

Apexls' regular indoor LED display ranges from P2 to P6.It has high design flexibility and can be customized in different cabinet sizes ,different cabinet shapes(flat,curved,ect.) and different cabinet type(with doors or without doors). Front service and rear service are available.
Application areas: Widely used in conference rooms, hotels, shopping malls, monitoring rooms, stage backgrounds, studios and so on.

- High gray scale
- High refresh rate
- Various cabinet size and cabinet shapes optional
- Seamless splicing, high flatness

LED OUTDOOR DISPLAY

500x500mm series

Apexls LED outdoor display conventional series is an outdoor surface mount LED high-definition display, which belongs to the standardized series of Kangshuozhan. The module kit is designed with a customized 45° inclination angle, which can be spliced at right angles and arcs to enhance visual effects.

AApplcation areas: Widely used in outdoor advertising such as outdoor squares, buildings, airports, railway stations, bus stations, high-speed railway stations and so on.

- Precise CNC Aluminum cabinet
- Good heat dissipation
- Multilocks positioning, seamless connection
- Fast lock design, quick installation, time and labor saving
- Aviation plugs design, easy cable connection
- Die casting Aluminem design , 40% lighter than traditional cabinet
- High reliability and stablity without image delay
- High contrast and good color uniformity

➤ SUCCESSFUL CASES

OUTDOOR DIP SERIES

Support both front and rear service, adopted traditional DIP technology, standard 240mm module size, high reliability, high brightness, high performance, widely used for outdoor permanent installation.
Application: outdoor advertising bill board, signage.
Pixel pitch: P10 / P12 /15 / P16

- Both Front service & rear service
- better cooling performance with fans
- various cabinet size available
- IP65 water proof degree
- high reliability, Long life
- 7000-13000nits brightness available

RENTAL LED DISPLAY

Rental LED display include indoor and outdoor series. The installation is quick and the power supply, HUB board, receiving card and modules are connected, which can be quickly removed and inserted. It is necessary for renting LED display, including, backup power supply, anti-collision LED boards, and more.

- Power backup design
- Continuous signal
- Compatible locking design
- Latest technology of anti-collision
- Hoisting installation
- Stacking installation
- Fixed fittings
